CITY OF PHILADELPHIA
DIVISION OF SOCIAL SERVICES
DEPARTMENT OF BEHAVIORAL HEALTH AND INTELLECTUAL disABILITY SERVICES

DBHIDS INTEGRATED INTAKE
APPLICATION PACKET

The Department of Behavioral Health and disAbility Services has developed a single intake for all contracted Behavioral Health Services. This intake will soon be available for on-line submission on our website at www.dbhids.org/. Please use these instructions to assure the accurate completion of this comprehensive form.

Application Attachments
- All Forms required to complete the DBHIDS Integrated Intake:
  - DBHIDS Integrated Intake (6 pages)
  - Authorization to Obtain, Use and Disclose Health Information (1 page)
  - Criminal History and Needs Assessment (2 pages)
  - Psychiatric Evaluation (1 page)
  - Medical Evaluation (1 page)
  - Accompanying Priority Group Documentation (1+ pages)

Other forms for reference:
- Veteran Types of Discharge
- DBHIDS Codes used for Integrated Intake
- Dr. Evans August 20, 2012 Memorandum on Office of Mental Health Residential System Changes
- Prescreening Protocol, including Additional Services and Housing Resources
  - The Prescreening Protocol is for your use and review; please use this tool prior to submitting a comprehensive application to assure the applicant meets all criteria.
- Chronic Homeless Definition
- Common Abbreviations used in Behavioral Health System
- Glossary of Terms used in Behavioral Health System

PLEASE NOTE: Submission of this application does not guarantee placement in a residential program.

The provision of Behavioral Health Residential services is not an entitlement under the State OMHSAS, or under Health Choices and resources remains quite limited. Please refer to the DBHIDS Prescreening Protocol (attached) before completing a full application for Community Residential Services. If your predetermination review indicates this person is appropriate for referral for Community Residential Services, please complete the application. The Office of Mental Health and its Transitions, Integration, and Partnerships (TIP) Unit for Mental Health Residential Services will make every effort to review this application in a timely manner and inform the referral source whether there are resources, and when a resource may become available. It remains the responsibility of the referral source to find alternative residential services.

Referrals for Community Residential Services Division are to be faxed to 215-790-4968.

Referrals for adult Behavioral Health Case Management must be mailed to:
Targeted Case Management Unit - 520 N. Delaware Ave - 4A, Philadelphia, PA 19123

General Instructions:
Please print clearly or type all pages of the application. Illegible forms will be returned as incomplete. All items on all forms must be completed, and completed according to indicated answer formats; for example, dates must be given as mm/dd/yyyy. Most items are self-explanatory; please refer to the explanations below for clarification on terminology.

Priority Group Documentation (For Residential Services):
Documentation of Criminal Mental Health Court or Prison MH Reentry programs is required for incarcerated participants. Applications for homeless participants must be accompanied by either: an Outreach Contact Report, generated by the Homeless Outreach Coordination Center (215-232-1984); a Family Program History (Shelter POS history) Report from the HMIS database through the Office of Supportive Housing; or a letter of residency from a current stay at an OSH Housing Inventory Chart Emergency or Transitional Housing Program, on letterhead of the agency that manages the site.
Page One

Referral Contact Person -- Please provide the contact that would receive questions or decisions on this application.

Participant Name: (Last/First/Middle): Please print (No nicknames).

AKA Type: Fill in either-- Alias; Former Name; Maiden Name; Birth Name; Married Name; Other; Error

Address: Participant’s permanent address -- Please indicated where the personal is living if they are currently in the community, or if they are not in the community, the most recent place they were living.

Gender: (1) Male (2) Female (3) Transgender (4) Male to Female (5) Female to Male
(6) Intersex (7) Genderqueer

Ethnicity Code: Fill in either Hispanic or Non-Hispanic

Race: Fill in one of the following: Refused to answer; Black/African American; Alaskan Native; Native American/American Indian; Asian; Bi-racial/mixed; White/Caucasian; Pacific Islander/Native Hawaiian; Other; Unknown

Sexual Orientation: (1) Heterosexual (2) Lesbian (3) Gay (4) Bisexual (5) Asexual
(8) Other (9) Unknown

Date of Birth: Include full year-- e.g. 01/22/1967

BSU Status: Enter BSU Number if the person is registered with a Community MH/IDS Center

CIS#: CBH Client Identification Number, if the person is registered with CBH

Insurance: Provide information on Insurance Coverage. Please utilize your agency’s access to the State of Pennsylvania’s Department of Public Welfare Electronic Verification system (EVS). First distinguish the Primary Coverage Type: FFS Medicaid; Managed Medicare; Medicaid; Other; Private; Unmanaged Medicare; VA. Then, only if the answer is FFS Medicaid, please specify the carrier for Physical Health Coverage: Aetna Better Health Medicaid; Health Partners Medicaid; United First Medicaid; United Medicaid.

Income Source(s): Please identify a source of income for your participant. If any source of income is declared, a monthly figure is required, even if estimated or rounded. Income categories are: SSI, SSDI, SSA, Work, Alimony, Pension/Retirement, Trust Fund, Stocks/Annuities, VA, Other, None.

Name of Payee: Name of person officially designated to receive SSI, SSDI or other payments.

Veteran Status: Answer the new, simplified questions with Yes/No answers.

Personal Identification Forms: Please indicate what forms of identification you currently have. Please note these forms are very important to maintain at all times.

Current Living Environment: Please use the Codes for Living Environment listed later in these instructions. This code applies to where the person is currently staying at the time of referral. A homeless person staying on an EAC Unit should be listed as code 19—EAC Unit.

Page Two

Current Hospitalization/Incarceration: Please list the name of the facility, the Admit Date and Anticipated Discharge Date. Please also list the Facility Contact name, title, and phone number.

Psychiatric Assessment: Please list all ICD-10 Codes with DSM 5 Diagnoses.
Medications: Including a medication list instead of inputting medications is acceptable. In order to input a medication, however, complete info is required for each medication, or the application cannot be processed.

Page Three
Medical Issues/Physical Disabilities: For each physical and/or medical challenge listed, please provide an indication of whether it is episodic, chronic, or acute and whether there has been recent treatment.

Substance Use/Abuse: If, in the last year, there has been any substance use/abuse, the section should be completed.

Forensic System Involvement: The Criminal History and Assessment Form must be completed and accompany this application.

Page Four
Family Status: Provide info on whether or not the participant has children. If the person has children, the rest of the info is required: total number of children, the number of custodial children, and number of dependent children.

Behavioral Risk Factors: Behaviors listed as anything other than “Not at all” must be accompanied by a date of last instance and a written description of the circumstances and assistance needed to manage the behavior.

Page Five
Meaningful Life Activities: Assess the skills and need for supports under each area.

Psychosocial; Educational/Vocational; Social/Recreational/Leisure Areas:
Please indicate all activities under each area, as well as desired activities. See DBHIDS Codes used for Integrated Intake attached. At least 1 code is required for both Current and Desired Activities for each category.

Page Six
Housing Preferences:
Please describe the type of living situation you would most want to live in.

Housing Preferences (cont’d.): Please check boxes to indicate which areas the person is willing to live in Philadelphia. At least 1 option is required.

Forms Requiring Signature
Authorization to Obtain, Use, and Disclose Health Information: This form is a requirement for disclosure of the information within the application so that it may be re-released to other services providers.

Medical Evaluations
The Medical Evaluation in this packet is used for the majority of Community Mental Health Residential Services. The exception is for those programs that are licensed as Personal Care Boarding Homes. If the person is being recommended for one of these programs, please complete the MA-51 in lieu of the DBH/IDS form. It must be signed by a licensed physician.

Psychiatric Evaluation
Please assure that all items are completed, including DSM codes for all diagnoses. Form must be signed by a licensed psychiatrist and dated.

Criminal Assessment Form
With any history of criminal court involvement, the Criminal History and Assessment Form must be completed in its entirety. If there is no history of Criminal Activity or Court Involvement, then the form must be filled in with the participant’s name and signed by the submitting party.
Adult Case Management Only

M E M O R A N D U M

TO: All Behavioral Health Service Providers
FROM: Arthur C. Evans, Ph.D., Commissioner
SUBJECT: Office of Mental Health Residential System Changes
DATE: August 20, 2012

The purpose of this correspondence is to provide you with an update on the pending changes in process for residential applications and resource information for individuals who may not meet the priority criteria to make such application.

As the City embarks on the implementation of a Permanent Supportive Housing (PSH) model, the Department of Behavioral Health and Intellectual disAbility Services (DBHIDS) is making its complementary transformation through the conversion of facility-based programs and congregate settings. DBHIDS will focus its development on an array of community-based supportive services that are intended to meet the needs and preferences of the person in their new living arrangement within the community. We believe this system change will align us with the City’s PSH model, promote long-term recovery, and bring the behavioral health system closer to fulfilling the objectives set forth in the Practice Guidelines’ framework.

However, the positive course of this System’s Transition and Departmental Transformation will result in a significant reduction in the number of available facility-based and congregate beds. As such, it is necessary to make changes to the Central Intake process within the Office of Mental Health. The reduction in facility-based capacity has caused an increased number of applications to be deferred at the point of submission. Consequently, we are in the process of instituting the attached prescreening tool to assure that priority populations continue to be considered for the limited available beds. The system is no longer in a position to accept unrestricted numbers of applications, and will institute a prescreening process before an application for MH Housing will be approved for submission. Attached please find the Prescreening Protocol, along with a listing of Additional Services and Housing Resources.

Those persons previously referred to Community Support Network/Access to Alternative Services (CSN/AAS) who do not meet the priority population criteria would be provided review and supportive services through their Case Manager, Transformed Day Services, Certified Peer Services or Outpatient Services. In those cases where there
is no current connection to supportive services, we strongly encourage linkage with or application for services in order to assure further planning and coordination. The attached document includes a list of resources that may be available to assist individuals in continued treatment or supportive community services.

CBH Member Services or Clinical Care Managers can also be consulted to determine if returning to their previous place of residence is feasible and/or if additional supportive services such as case management, certified peer services, outpatient or transformed day services would be appropriate and available.

As we move forward with the residential transformation, it is our goal to reorganize the remaining residential services to a transitional rehabilitation and skill building service system. These residential services would be a short-term, intensive program that focuses on community integration and quick movement toward permanent supported housing.

These transformed programs would only serve those persons meeting criteria outlined in the attached checklist. Please use this as a guideline for determining if an application should be completed for transitional housing.

If you have any questions, please contact Gerard Devine, DBH Program Manager via email at gerard.devine@phila.gov, or at 215-546-0300.
The DBHIDS Central Intake for Adult Mental Health Residential Services (Transitions, Integration, and Partnerships Unit) will no longer be accepting applications for housing and residential support without a predetermination review.

**Person under review must either meet ALL of the four criteria below OR be a current resident at a TIP facility and in transition planning:**

- S/He meets PA Adult Priority Group criteria for Serious Mental Illness. *(PA Bulletin OMH 94-04)*
- S/He is a Philadelphia County resident for a minimum of 6 months (exclusive of any institutional placement).
- S/He is at least 18 years old. Children's housing resources will first be explored for clients aged 18 to 21.
- Person's income is below $1000 per month unless there is a documented, extraordinary clinical or financial need.

**Person under review must meet either Treatment History criteria or be experiencing at least one of the Co-existing Conditions, or currently reside at a TIP Mental Health Residential Facility.**

**Treatment History**

- S/He is currently on Extended Acute Care (EAC) Unit or EAC Waiting List
- S/He is a current resident at Norristown State Hospital through the Department of Corrections (DOC)
- S/He is currently in a Long Term Structured Residence (LTSR)

**Co-existing Conditions**

**Emerging Adult**

Those persons aged 18-24 who have been unstably housed and have experienced homelessness after aging out of DHS Care.

**Homelessness*, when there has been**

- Documentation of Homeless Outreach Contacts (Outreach Coordination Ctr 215-232-1984) within past 90 days, or
- Admission to Safe Haven, or
- Multiple or Long-Term Shelter Admission. *See HUD Chronic Homeless Criteria*

**Those persons eligible for Release from Criminal Detention, who are monitored in**

- Criminal Mental Health Court, in coordination with the Specialized Clinical and Criminal Justice Unit (SCCJU), or
- DOC referrals for persons who will be reaching maximum sentence in 12 months, in coordination with the SCCJU, or
- Philadelphia Prison System (PPS) Reentry Program Coordination, for persons reaching maximum sentence, or
- Other persons leaving long-term institutional settings, in coordination with the SCCJU.

* Homeless persons are those who are sleeping in shelters or in places not meant for human habitation, such as cars, parks, sidewalks or abandoned buildings.

In the case where there is no current connection to supportive services, we strongly encourage linkage with or application for services if there is no one assigned, in order to assure further planning and coordination.

What will continue within a much smaller DBH Community site-based transitional rehabilitation and skill building service system, would be short-term, intensive programs focused on community integration for those persons meeting the targeted priority criteria listed above.

For further questions, please contact us at:  [www.dbhids.org/contact-us/](http://www.dbhids.org/contact-us/)
Additional Services and Housing Resources

- CBH Member Services or Clinical Care Managers should be consulted on whether returning to their previous place of residence, or a similar living situation would be feasible with a Coordinated Community Support Services review.

- If the person is in need of treatment, you can contact Member Services at 215-413-3100.

- CBH should be consulted for Substance Abuse Treatment if appropriate, or if uninsured contact BHSI at 215-546-1200 for treatment/rehab.

- OAS for Recovery House placement: 215-790-4974 or 215-790-4979

- Housing & Support for MH and/or Substance Use Challenges: Joshua Achievement Center
  215-785-2209
  Contact: Pastor David Jones

- For persons who have a co-occurring serious mental illness and substance abuse disorder, you can also contact
  - Gaudenzia RINT RTFA Intake Coordinator at 215-223-9460, or
  - Girard RINT RTFA Intake Coordinator at 215-787-2213

- WWW.PHILADELPHIA.PA.NETWORKOFCARE.ORG Online resource for those seeking information about behavioral health and intellectual disability services.

- DBH continues to provide liaison with PCBH placement which will continue to be available. Please contact Brenda Blackwell-Sermon or Janice Porterfield at 215-599-2150 ext 3213 or 3214.

- PCA Resources access through the PCA Helpline at 215-765-9040, or at: WWW.PCACARES.ORG

- PAHousingSearch.com A free service to find affordable apartments.

- PHMC.ORG Maintains a resource guide to provide easy access to services and housing resources.

- www.oneneighborhood.org For information on the Office of Supported Housing (OSH) and information for individuals and families who are homeless.
  For shelter admission for single men go to:
  Station House
  2801 N. Broad Street (rear entrance near Lehigh)
  Philadelphia, PA, 19123 (24 hours)

  for women and families go to:
  Appletree Family Center
  1430 Cherry Street
  Philadelphia, PA, 1910; (7am to 3pm)

Please note OSH information may change. We will update asap, so please check the DBH Website at www.dbhids.org

If the predetermination review indicates this person is appropriate for referral for Community Support Residential services, please complete the application available here. DBH Integrated Intake Form.xlsx

Please understand the provision of Behavioral Health residential services is not an entitlement under the State OMHSAS, or under Health Choices and resources are seriously limited.
Section B: Eligible Participants

Who is Considered Homeless?

The definition of who is homeless is found in section 103 of the McKinney-Vento Act and also referenced in the regulations at 24 CFR 583.5. Basically, a homeless person is someone who is living on the street or in an emergency shelter, or who would be living on the street or in an emergency shelter without SHP assistance. See special guidance on serving youth and persons who may be illegal aliens in the Special Guidance sections below.

A person is considered homeless only when he/she resides in one of the three places described below:

1. places not meant for human habitation, such as cars, parks, sidewalks, and abandoned buildings;
2. an emergency shelter; or
3. transitional housing for homeless persons.

If a person is in one of these three places, but most recently spent less than 30 days in a jail or institution, he/she qualifies as coming from one of these three categories.

In addition to the above three categories as noted in the 2005 NOFA and beyond, projects providing Transitional Housing including, Safe Havens, or Supportive Services Only projects may also serve populations meeting the following:

4. eviction within a week from a private dwelling unit and no subsequent residence has been identified and the person lacks the resources and support networks needed to obtain housing; or
5. discharge within a week from an institution in which the person has been a resident for 30 or more consecutive days and no subsequent residence has been identified and he/she lacks the resources and support networks needed to obtain housing.

Eligibility for New and Renewal Permanent Housing Projects

Beginning with the 2005 NOFA, persons assisted by new and renewal permanent housing projects must be homeless and come from:

1. places not meant for human habitation, such as cars, parks, sidewalks, and abandoned buildings;
2. an emergency shelter; or
3. transitional housing for homeless persons who originally came from the streets or emergency shelter.

It is HUD's intent to continue using these criteria in future NOFAs. Current grantees that apply for renewal grants should familiarize themselves with the homeless definition in the NOFA and be aware that HUD will expect them to apply these criteria to new program participants, not current participants. That is, the eligibility criteria above apply to the screening process as units become vacant. This does not mean that current residents are to be removed from housing if they entered on the basis of 5 listed above.
Who is Not Considered Homeless?

Persons who are not homeless may not receive assistance under SHP. Examples of people who are not homeless are those who are:

- In housing, even though they are paying an excessive amount for their housing, the housing is substandard and in need of repair, or the housing is crowded;
- Incarcerated;
- Living with relatives or friends;
- Living in a Board and Care, Adult Congregate Living Facility, or similar place;
- Being discharged from an institution which is required to provide or arrange housing upon release; or
- Utilizing Housing Choice Vouchers, except Katrina evacuees that received Katrina Disaster Housing Assistance Program (KDHAP) Housing Choice Vouchers.

Serving Chronically Homeless Individuals

Beginning with the 2004 NOFA, HUD has defined "chronically homeless" as an unaccompanied homeless individual with a disabling condition who has either been continuously homeless for a year or more OR has had at least four (4) episodes of homelessness in the past three (3) years. In order to be considered chronically homeless, a person must have been sleeping in a place not meant for human habitation (e.g., living on the streets) and/or in an emergency homeless shelter.

As defined in the 2004-2007 NOFAs, a disabling condition is "a diagnosable substance abuse disorder, serious mental illness, developmental disability, or chronic physical illness or disability, including the co-occurrence of two or more of these conditions." A disabling condition limits an individual's ability to work or perform one or more activities of daily living.

An episode of homelessness is a separate, distinct, and sustained stay on the streets and/or in an emergency homeless shelter. A chronically homeless person must be unaccompanied and disabled during each episode.

To be defined as chronically homeless, a person must be sleeping in a place not meant for human habitation (e.g., living on the streets) or in emergency shelter at the time of the count or eligibility determination. The definition does not include those currently in transitional housing.

Special Guidance on Serving Persons Who May Be Illegal Aliens

The Personal Responsibility and Work Opportunity Reconciliation Act of 1996 imposed restrictions on eligibility for receipt of public benefits. Essentially, the law provides that illegal aliens are not to receive public benefits and specifies how the inquiry into a person's status is to be conducted. However, there is an exception to the law for community programs that are necessary for protection of life or safety. SHP transitional housing has been determined to be excepted because it provides short-term shelter or housing assistance, non-cash services at the community level and is not means-tested.

The exception does not apply to SHP permanent housing projects. For permanent housing projects, grantees that are governments are required to comply with the law and should contact their legal counsel for advice on how to comply. Grantees that are nonprofit charitable organizations are not required to, but may, verify an applicant's citizenship or immigration status before providing assistance. If a nonprofit elects to verify citizenship or immigration status, they must follow the procedures required by the Act and should consult with their legal counsel on how to comply.

How to Demonstrate Participant Eligibility at Application

When applying for SHP funds it is imperative that the New Project Narrative in the application demonstrates that the proposed population to be served is homeless. Applicants should indicate where the proposed population will be residing prior to acceptance in the project, and then clearly describe an outreach and engagement plan to bring the proposed population into the project.
How to Demonstrate Compliance during Project Implementation

Recipients must maintain adequate documentation to demonstrate the eligibility of persons served by SHP funds. Below are types of documentation that HUD will accept as adequate evidence of participant eligibility.

Persons Coming from an Emergency Shelter for Homeless Persons
The grantee or project sponsor must have written verification from the emergency shelter staff that the participant has been residing at an emergency shelter for homeless persons. The verification must be on agency letterhead, signed and dated.

Persons Coming from Transitional Housing for Homeless Persons
The grantee or project sponsor must have written verification from the transitional housing facility staff that the participant has been residing in the transitional housing. The verification must be on agency letterhead, signed and dated.

The grantee or project sponsor must also have written verification with a letter from the original agency verifying that the participant was living on the streets or in an emergency shelter prior to living in the transitional housing facility (see above for required documentation) or was discharged from an institution or evicted prior to living in the transitional housing facility and would have been homeless if not for the transitional housing (see below for required documentation).

Persons Living on the Street
For Supportive Services Only projects that provide services -- such as outreach, food, health care, and clothing -- to persons who reside on the streets, it may not be feasible to require the homeless persons to document that they reside on the street. It is sufficient for the outreach staff to certify that the persons served reside on the street. The outreach or service worker should sign and date a general certification verifying that services are going to homeless persons and indicating where the persons reside.

For all other SHP projects, the grantee or project sponsor should obtain information to verify that a participant is coming from the street. This may include names of other organizations or outreach workers who have assisted them in the recent past who might provide documentation. If you are unable to verify that the person is coming from the street, have the participant prepare or you prepare a written statement about the participant’s previous living place and have the participant sign the statement and date it.

If an outreach worker or social service agency referred the participant to your agency, you must obtain written verification from the referring organization regarding where the person has been residing. This verification should be on agency letterhead, signed and dated.

Persons Coming from a Short-term Stay (up to 30 consecutive days) in an Institution
The grantee or project sponsor must have written verification on agency letterhead from the institution’s staff that the participant has been residing in the institution for 30 days or less. The verification must be signed, dated, and on agency letterhead.

The grantee must also have written verification that the participant was residing on the street or in an emergency shelter prior to the short-term stay in the institution. See above for guidance.

Persons Being Evicted from a Private Dwelling
The grantee or project sponsor must have evidence of the formal eviction proceedings indicating that the participant was being evicted within the week before receiving SHP assistance.

If the person’s family is evicting him/her, a statement describing the reason for eviction must be signed by the family member and dated. In cases where there is no formal eviction process, persons are considered evicted when they are forced out of the dwelling unit by circumstances beyond their control. In those instances, the grantee and project sponsor must obtain a signed and dated statement from the participant describing the situation. The grantee and project sponsor must make efforts to confirm that these circumstances are true and have written verification describing the efforts and attesting to their validity. The verification must be signed and dated.
The grantee and project sponsor must also have information on the income of the participant and what efforts were made to obtain housing and why, without the SHP assistance, the participant would be living on the street or in an emergency shelter.

**Persons Being Discharged from a Longer Stay (>30 days) in an Institution (Including Prison)**
The grantee or project sponsor must have evidence on agency letterhead from the institution's staff that the participant was in the facility more than 30 days and is being discharged within the week before receiving SHP assistance. The grantee and project sponsor must also have information on the income of the participant and what efforts were made to obtain housing, and why, without the SHP assistance, the participant would be living on the street or in an emergency shelter. If the person is being discharged from a prison and the prison is required to provide or arrange housing upon release, the person is not homeless.

**Persons Fleeing Domestic Violence**
The grantee or project sponsor must have written verification from the participant that he/she is fleeing a domestic violence situation. If the participant is unable to prepare the verification, the grantee/project sponsor can prepare a written statement about the participant's previous living situation and have the participant sign the statement and date it. Grantees and project sponsors must also document lack of resources, lack of subsequent residence and lack of support network for persons fleeing domestic violence situations.

**Youth**
Youth are eligible to receive SHP assistance only if they meet the criteria listed above under Who is Considered Homeless? and they are not wards of the state under the state law where the youth resides. In addition to the documentation identified above, grantees and project sponsors serving youth must have written verification that the youth are not wards of the state.

**How to Demonstrate Eligibility for the Permanent Housing Component**
The permanent housing for persons with disabilities component may only accept homeless persons with a qualifying disability and their families. In addition to the types of evidence described above, organizations administering permanent housing funded projects must maintain evidence of disability status for their clients.

**Disability Status**
According to the McKinney-Vento Act (Section 11382), the term "disability" means:

A. A disability as defined in Section 223 of the Social Security Act (42 U.S.C. 423);

B. To be determined to have, pursuant to regulations issued by the Secretary, a physical, mental, or emotional impairment which:
   1. is expected to be of long-continued and indefinite duration,
   2. substantially impedes an individual's ability to live independently, and
   3. of a nature that could be improved by more suitable housing conditions (e.g., a substance abuse disorder if the person's impairment could be improved by more suitable housing conditions);

C. A developmental disability as defined in Section 102 of the Developmental Disabilities Assistance and Bill of Rights Act of 2000; or

D. The disease of acquired immunodeficiency syndrome (AIDS) or conditions arising from the etiologic agency for acquired immunodeficiency syndrome.

The grantee or project sponsor must have written verification from a state licensed qualified source that the person has such a disability. Qualified sources include medical services providers, certified substance abuse counselors, physicians or treating health care provider as stated in the Social Security Act (42 U.S.C. Section 423).

To verify disability under Section 223 of the Social Security Act, program staff can ask clients to sign a release form so that staff can request a verification of benefits from the Social Security Administration (SSA). Program staff can do this by mail or by calling the SSA information line at 1-800-772-1213 to verify the information verbally. A claim number should be included on all correspondence from SSA (award letters, benefit
statements, or verification letters). Claim numbers with the suffix \textit{Di} show that the individual met the definition of disabled at Section 223 of the Social Security Act.

Documenting disability when clients do not receive Supplemental Security Income (SSI) involves getting a written statement from a qualified source that: (1) identifies the physical, mental or emotional impairment, why it is expected to be of long-continued or indefinite duration, how it impedes the individual's ability to live independently, and how the individual's ability to live independently could be improved by more suitable housing conditions; (2) identifies a developmental disability; or (3) identifies AIDS or related conditions.

Grantees should also reference Health Care for the Homeless' \textit{Documenting Disability: Simple Strategies for Medical Providers Guide} for more information on documenting disability.

\textbf{Section B: Frequently Asked Questions}

1. \textbf{Can a project serve persons at risk of becoming homeless?}
   
   No. By law, only those persons who are homeless may be served by SHP. If your organization wants to serve persons at risk of becoming homeless, persons who are "doubled up," or persons who are "near homelessness," it would need to use another source. HUD administers the Emergency Shelter Grants (ESG) program that can fund homelessness prevention activities. A variety of other programs, such as the Housing Choice Voucher Program (HCV), Community Development Block Grant (CDBG) and HOME, serve low-income persons who may be at risk of becoming homeless due to poor housing conditions, overcrowding or other reasons. Contact your local HUD field office for more information on these and other programs.

2. \textbf{Can a project serve a person being discharged from a state mental health institution in a state that requires housing to be provided upon the person's release?}
   
   If your state has a policy requiring housing as part of a discharge plan, HUD does not consider those persons eligible for assistance since they will be placed in housing arranged by the state. Contact your state department of mental health or similar state agency for information on its discharge policy. If your state does not require housing as part of discharge planning, then those persons being discharged may be served as long as they meet the eligibility requirements. Please note that projects cannot be structured to target individuals being discharged from these institutions.

   As a condition for award, any governmental entity serving as an applicant must agree to develop and implement, to the maximum extent practicable and where appropriate, policies and protocols for the discharge of persons from publicly funded institutions or systems of care (such as health care facilities, foster care or other youth facilities, or correction programs and institutions) in order to prevent such discharge from immediately resulting in homelessness for such persons. This condition for award, required by law, is intended to emphasize that states and units of local government are primarily responsible for the care of these individuals, and to forestall attempts to use scarce McKinney-Vento Act funds to assist such persons in lieu of state and local resources.

3. \textbf{Are programs required to screen for sexual offenders?}
   
   No. There is no SHP requirement for programs to screen for sexual offenders. However, program staff should consider the population being served to determine whether screening for sexual offenders is appropriate.

4. \textbf{Can SHP funds be used to lease an apartment where a participant will live with a family member?}
   
   No. If the participant moves in with a family member, he/she no longer fits the definition of homeless. If a family is willing to house the participant, then the participant does not lack resources or support networks.

**GLOSSARY**

<table>
<thead>
<tr>
<th>Term</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Base Service Unit (BSU)</strong></td>
<td>The Philadelphia BSU system is comprised of thirteen federally mandated community mental health centers located in specified catchment areas. It is a geographically based model intended to facilitate data collection and tracking of individuals based upon their area of residence. Historically, the BSU system has also been used as a 'safety net' where people with no insurance are directed and expected to receive services.</td>
</tr>
<tr>
<td><strong>Community Behavioral Health (CBH)</strong></td>
<td>is a private, non-profit corporation operated by the City of Philadelphia serving persons with mental illness and addictions. It is the largest behavioral health managed care organization in the country devoted to serving persons on Medicaid and the only one operated by a government body.</td>
</tr>
<tr>
<td><strong>Concurrent Review</strong></td>
<td>is a semi-annual process in which the service participant's need for continuing service is assessed. Continued authorization of Targeted Case Management services is determined by CBH through the DBHIDS-TCM Unit staff following review of information submitted by the agency Targeted Case Management Team (including the Individual Information Form and Personal Goal Plan). Residential Concurrent Review is conducted by TIP Unit Program Analysis staff.</td>
</tr>
<tr>
<td><strong>Environmental Matrix-Adults</strong></td>
<td>is a scale that evaluates the functional level of individuals on six identified activities and determines the need for case management services. The scale is used by OMH-TCM staff at the time of referral for case management services (provisional score). The scale is used by agency TCM staff 1) within 30 days of authorization to TCM services, 2) whenever there is a substantial change in the individual's life and 3) at the point of concurrent review.</td>
</tr>
<tr>
<td><strong>Medical Necessity Criteria</strong></td>
<td>are factors used to determine a person's need for TCM services. These criteria are based on the person's mental health diagnosis, level of functioning, mental health treatment history, and the Environmental Matrix.</td>
</tr>
<tr>
<td><strong>MH Residential</strong></td>
<td>Mental Health Transitional Housing Programs that were previously considered &quot;Residential Programs&quot; have been the foundation of a psych-rehab service delivered in congregate or clustered apartment settings. Below are listed acronyms that have been used to describe these settings;</td>
</tr>
<tr>
<td><strong>PDR Progressive Demand Residences</strong></td>
<td>Provides minimal level of structure for persons being discharged from a hospital or are in urgent need of temporary housing.</td>
</tr>
<tr>
<td><strong>CRRS Specialized CRR</strong></td>
<td>Provides CRR services with various enhancements for medical needs.</td>
</tr>
<tr>
<td><strong>RITA Rehabilitative Intensive Therapeutic Arrangement</strong></td>
<td>Provides a comparatively structured setting. Persons referred may present greater behavioral challenges and generally need a higher client-to-staff ratio.</td>
</tr>
<tr>
<td><strong>ICRR Intensive CRR</strong></td>
<td>CRR services with intensive supervision, typically MH care for forensic reentry.</td>
</tr>
<tr>
<td><strong>CRRX Max care CRR</strong></td>
<td>CRR services with maximum supervision.</td>
</tr>
<tr>
<td><strong>SPEC Specialized Residence</strong></td>
<td>Programs that provide a wide range of enhanced MH care.</td>
</tr>
<tr>
<td><strong>CRRM Mod care CRR</strong></td>
<td>CRR with moderate supervision.</td>
</tr>
<tr>
<td><strong>RTFA Residential Treatment Facility Adult</strong></td>
<td>Also known as &quot;RINT&quot;, provides greatest need for structure or the deepest commitment amongst those with co-occurring mental health and drug and alcohol abuse issues.</td>
</tr>
<tr>
<td><strong>CLA Community Living Arrangement</strong></td>
<td>Provides MH care with enhancements that complement ID services.</td>
</tr>
<tr>
<td><strong>Psycho geriatric</strong></td>
<td>Provides co-occurring MH/geriatric needs. These programs generally expect clients to be 55 to 60 years or older.</td>
</tr>
<tr>
<td>Term</td>
<td>Definition</td>
</tr>
<tr>
<td>----------------------------------------------------------</td>
<td>-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>SHP—Supported Housing Program</td>
<td>The apartments are frequently &quot;clustered&quot; in a single building. These programs commonly include HUD funding which requires that clients have a history of homelessness. When a client &quot;graduates&quot; from this program, he or she needs to find other housing arrangements (with assistance, as needed).</td>
</tr>
<tr>
<td>SIL Supported Independent Living</td>
<td>These apartments are commonly &quot;scattered&quot; throughout the city. When a client &quot;graduates&quot; from this program, he or she commonly remains in the apartment; the support team is simply withdrawn.</td>
</tr>
<tr>
<td>Natural Community Supports</td>
<td>are naturally occurring resources in the community that are available to all citizens in the community. Services and resources funded by the BHS are excluded by definition. Examples of natural community supports include religious organizations, recreation centers, family, and friends, other community members such as landlord, and neighbors, and educational programs.</td>
</tr>
<tr>
<td>Office of Addiction Services OAS (formerly known as CODAAP)</td>
<td>is a component of the Behavioral Health System operated by the Philadelphia Department of Behavioral Health and Intellectual Disability Services. It has the responsibility of planning, funding, and monitoring substance abuse prevention, intervention, and treatment services within the City of Philadelphia.</td>
</tr>
<tr>
<td>Office of Mental Health</td>
<td>is a component of the Behavioral Health System operated by the Philadelphia Department of Behavioral Health and Intellectual Disabilities Services. It provides administrative, fiscal, program planning and monitoring for a comprehensive array of supplemental services for persons with mental illness such as residential and vocational services and Crisis Response Centers.</td>
</tr>
<tr>
<td>DBHIDS Targeted Case Management Unit (DBHIDS-TCM Unit)</td>
<td>is a unit that is dedicated to Targeted Case Management services and service provision for the Behavior Health System. The Unit is a primary support to the providers of TCM services for the Adult Mental Health individual and liaisons regularly with CBH and other OMH units to ensure quality of services to the BHS individual.</td>
</tr>
<tr>
<td>Personal Goal Plan (PGP)</td>
<td>is a strengths-based, individualized plan that serves as a roadmap for, and documents the provision of, TCM service. The PGP is an expression of the individual's needs and desires identified in his or her Strengths Assessment.</td>
</tr>
<tr>
<td>Blended Enhanced Case Management Model (TCM)</td>
<td>is an Intensive Case Management model in which the intensity of case management and frequency of individual contact vary in accordance with the individual's changing needs without altering the team of case managers. The pilot model also enhances delivery of service through the addition of a full-time consulting/treating psychiatrist, a nurse and a drug and alcohol specialist to the case management team.</td>
</tr>
<tr>
<td>Resource Coordination (RC)</td>
<td>as defined by Mental Health Bulletin (OMH-93-09) dated April 1, 1993 entitled Resource Coordination: Implementation.</td>
</tr>
<tr>
<td>Wellness Management Plan (WMP)</td>
<td>is an expansion of the Crisis Plan that includes relapse and crisis prevention interventions developed over time (the initial 90 days) with the person being served by TCM. The WMP may be a specialized Personal Goal Plan. The WMP identifies triggers, warning signs, special problems/needs and interventions/supports that have been developed with the person being served when they are in a period of stability. The plan is further developed as experience allows. The WMP may include (informal) Advance Directives.</td>
</tr>
