

Community Behavioral Health: Provider Notification Updated Claims Institutional and Professional Companion Guides October 19, 2018

Community Behavioral Health (CBH) has updated its Institutional Companion Guide and Professional Companion Guide to accommodate Ordering, Referring and Prescribing (ORP) National Provider Identifier data; they can be found on the DBHIDS website here: <https://dbhids.org/providers-seeking-information/community-behavioral-health/cbh-hipaa-resources/>

This data request is associated with the Pennsylvania Department of Human Services Medical Assistance Bulletin # 99-17-12 found here: http://www.dhs.pa.gov/cs/groups/webcontent/documents/bulletin_admin/c_257246.pdf

Our updated CBH Companion Guides list the locations within 837P and 837I where the required data must be sent. Please review the updated data collection requirement and instructions with your billing programmer or vendor, so that you can make the necessary changes to your system. The submitted Ordering, Referring, and Prescribing National Provider Identifier data will be compared against Pennsylvania Department of Human Services Medical Assistance enrollment file. Those Ordering, Referring, and Prescribing National Provider Identifiers not enrolled with Pennsylvania Department of Human Services Medical Assistance will be contacted by your assigned Provider Relations Representative to have that individual enrolled.

Lastly, we are not currently rejecting claims missing this required data at the request of Pennsylvania Department of Human Services. We will give a 30-day notice in advance as to when a claim edit will be turned on for validating the submitted Ordering, Referring and Prescribing National Provider Identifier.

Please direct questions regarding this Notification to your assigned Claims Analyst.
