

STRUCTURE AND OVERSIGHT

Overview

- **\$1.6B** single-payer system operated by the City of Philadelphia
- Within DBHIDS there are six divisions, that oversee services for children, adults, and families
- Intellectual disAbility Services (IDS) division managed services for **15,592**, inclusive of Early Intervention in FY 2019
- Division of Behavioral Health (DBH) managed services for **43,301** uninsured individuals in FY 2019
- Community Behavioral Health (CBH) managed mental health and substance use services for Medicaid and had **717,953** members in CY 2018

176,904 total individuals served annually by DBHIDS

HealthChoices

In **1997**, the Commonwealth of Pennsylvania introduced a new integrated and coordinated health care delivery system, known as HealthChoices, to provide health services to Medical Assistance members.

Two Service Components

State requires
interaction & coordination
between the separate plans

Members assigned a **behavioral health plan** based on their county

Counties ensure:

- High-quality care
- Timely access to services
- Links to other needed services

Funding Stream

Community Behavioral Health

- Only county in Pennsylvania that opted to create its own Behavioral Health Managed Care Organization
- 501(c)3 organization with a Board of Directors controlled by Philadelphia County
- Keeps administrative costs very low - **less than 9%**
- Does not retain any profit; monies saved are available for City of Philadelphia reinvestment opportunities
- Reinvestment opportunities advance the system in priority areas, e.g. Adult Substance Use Partial Hospitalization Program and Children's Mobile Crisis Services
