

DBHIDS Executive Directors' Meeting October 7, 2020
Questions & Comments in the Chat Function:

From Marlene Douglas-Walsh

Is it too late for us to opt back into the APA, as it is taking longer than projected for our census to stabilize?

- From Donna Bailey
For questions related to APA please reach out to your Provider Representative.

From Ivan Haskell

We appreciate the flexibility on remote 302s. Thanks for working to make this happen. However, how has the new process been publicized to police precincts so that they will understand that the petitioner does not have to be physically at the same location as the person being 302ed in order for them to execute the 302 warrant?

- From Sosunmolu Shoyinka
A roll out process for the E302 process will be communicated.

From Jeff Wilush

Has anyone at this point received any CARES ACT funding from the Provider Relief Fund for BH services? Is there any update regarding the use of CARES SCT funds provided to the City in support of the provider community?

- From Jonathan Solomons
CATCH received Phase II relief funds earlier this month.

From Chris Tjoa

One other update which didn't make the slide deck - CBH and DBHIDS are hosting a lecture series on Health Disparity and potential interventions. Information about this is in CBH News, the next Lecture is November 18th focusing on Tobacco Disparity and advocacy, featuring Reverend Jesse W Brown Jr and Dr Frank Leone. This is followed in December by Dr. Jonathan MetzI, author of "The Protest Psychosis: How Schizophrenia Became a Black Disease."

From Rebecca Bonner

Thank you, Roland. You can also reach out to Angela Smith, our Head of School at angela.smith@thebridgewayschool.org or 267.437.2194.

From Asher Kemp, Jr.

Latino Behavioral Health Coalition & Coalition of Culturally Competent Providers Virtual Town Hall Meeting Identifying Resources During COVID-19 10/21/20 4pm-7pm.

From Hector Ayala

This webinar from the Latino Behavioral Health Coalition (LBHC), Coalition of Culturally Competent Providers (CCCCP), and The Society of Ibero Latin American Medical Professionals (SILAMP) contains valuable resources and practical advice from a panel of experts managing and supporting the COVID-19 response in Philadelphia. If you are interested in keeping up with this information, in understanding how to navigate this landscape and preventing communities of color from harm, we encourage you to register and join our discussion.
